

AGREEMENTS

Students are expected to participate in all Health & Medical Professional events. Attendance is vital to each student's success in the program. Absences may not exceed 10 per semester or two (2) clinical days* per semester. Students enrolled in Nursing Assistant/Allied Health must complete a minimum of forty (40) clinical hours with twenty (20) hours to be completed in a nursing home.

Students will be accountable for their behavior at all times. Greater than three (3) referrals or one (1) suspension during sophomore and junior year may prevent a student from advancing to the next level course(s). Greater than one (1) referral or suspension during senior year may result in removal from the clinical site and rotation being completed in the classroom skill lab.

Clinical and community agencies require students to meet standards, similar to employees, for criminal offenses and use of illegal substances. Prior to final admission into the Program, health science education students are required to be screened through the Florida Department of Law Enforcement (FDLE) or comparable checks from State(s) of prior residence during the past five years. This screening will be repeated in the student's Senior Year. An independent drug test is also required in the Senior Year of the program.

An overall GPA of 2.0 is required to apply to the academy and must be maintained. A one semester probation period may be instituted if overall GPA falls below 2.0 or Medical Program GPA falls below 2.0.

*(Clinical Days are defined as days students are scheduled to be working in health care facilities.)

Programs, activities, and facilities of Estero High School are available to all on a non-discriminatory basis without regard to race, color, creed, religion, sex, age, disability, marital status or national origin.
